Performance Notes: Many full stage / part stage full body shots also have a close-up aspect. Only HDVD so far w/in the orchestra behind the audience. Does this mean the sound should becoming out of the surround rear speakers? Beautiful keepcase booklet. The video pace was running about 17+ seconds per clip until close to the end when many new characters appear and Sommer speeds up. Spooky shots of venue w/ audience are impressive & revealing... old submarine factory?
